

As staff time allows, the reference department can provide photocopies or PDF documents of obituary, marriage notices and other articles.

The fee for staff to retrieve information from microfilm is \$3.00 an article. The minimal charge is used to compensate for the time involved to conduct searches.

Death notices that list the date and newspaper in which the obituary is published and cemetery listings have been indexed from a variety of local papers and can be searched at

<http://www.pvillage.org/cemeteries/>

A listing of newspapers in our microfilm collection can be found at

<http://nwrlib.org/Genealogy>

Please use the attached form to make your microfilm retrieval requests.

If you do not have an approximate date for the article you seek, library staff will NOT be able to search for you, because this would involve going through newspapers day by day.

Please include a check made out to *Thief River Falls Public Library* with your queries and mail to PO Box 674, 102 First St E, Thief River Falls, MN 56701 or by emailing trfobits@nwrlib.org.

Patron usage of the microfilm and the microfilm reader is limited to appointment with the microfilm research staff. Please contact the library to arrange an appointment by calling 218-681-4325 or by emailing trfobits@nwrlib.org.

A patron fee for printing items for the microfilm reader/printers is 25 cents per page.

Microfilm is not available for loan.
